Celebrate Earth Day and Oceans Day with Carl Safina

Cold Spring Harbor, NY –

"Whether we help one unlucky creature or wish to save the world, for each of us the challenge and opportunity is to cherish all life as the gift it is, envision it whole, seek to know it truly, and undertake - with our minds, hearts and hands-to restore its abundance. Where there's life there's hope, and so no place can inspire more hopefulness than the great, life-making sea, home to creatures of mystery and majesty, whose future now depends on human compassion and our next move."

- Dr. Carl Safina

We hope this Earth Day inspires you to get involved and helps you develop a deeper connection with nature. Blue Ocean Institute has many ways for you to stay informed and help restore living abundance in the ocean.
