Carl Safina Releases New Book: The View from Lazy Point

Cold Spring Harbor, NY –

Carl Safina's fifth book, *The View From Lazy Point; A Natural Year in an Unnatural World* is now available everywhere.

A deeply personal book with a broadly global message, *The View From Lazy Point* is an exhilarating journey with a distinctly coastal flavor. In this intertwined story of humanity and the natural world, Safina shows that nature and human dignity require each other.

Early Praise for *Lazy Point*:

"A true masterpiece... *Lazy Point* just might become the 21st century's *Walden*."
-Gary Soucie, former editor of *Audubon Magazine*

"A book of beautifully modulated patterns and gracefully stated imperatives... Carl Safina's books evince two traits not commonly associated with science writing: exquisite language and freely expressed empathy for animals."
-Booklist, Starred Review

"The environment's glass is half-full for lyrical conservationist Safina. . . .
An optimism suffuses this sensible and sensitive book."
-Publishers' Weekly

"Literate wanderings in a world full of wounds, led by accomplished traveler, writer and Blue Ocean Institute founder Carl Safina. . . Safina manages to strike a balance. . . . He combines solid science and excellent storytelling. A superb work."-Kirkus, Starred Review
